

COMPONENTS CERTIFICATE

We certify that the Stoneware, Serveware & Tableware products stated on all our order confirmations are made of high fired fine stoneware at a firing temperature of 1180°C.

CHEMICAL COMPOSITION:

Feldspar	20%
Kaolin	30%
Ball Clay	20%
Silica Sand	30%

This combination, as well as all the processes, is used in all our products with no significant variations. Therefore, all our products remain with the same characteristics despite different shapes and colours.
